Dear Station,

Pursuant to the Children's Television Act of 1990, "ANIMAL RESCUE" will satisfy the FCC Children's Programming requirement and can be classified as either core or non-core programming. "ANIMAL RESCUE" serves the educational and informational needs of children 13 to 16 years of age with its program content, including safety tips and informational about various animals and their habitats. The programs also show real life in-the-field experiences of professional and ordinary people taking care of, treating and helping various animals, as well as exhibiting good social responsibility and promoting strong personal and community values.

To facilitate your FCC filings, episode synopses are available on-line at our website, www.telcoproductions.com. Also available on-line are testimonials from our program advisory board, consisting of educators and veterinary professionals who have reviewed the program (see following pages).

If you have any other questions or comments, please don't hesitate to contact us.

Sincerely,

Alex Paen

Dear Alex,

Upon review of several programs, it is my opinion that "Animal Rescue" is an educational and instructional television series for children 16 years of age and younger. As a teacher, lecturer and Doctor of Veterinary Medicine, I feel "Animal Rescue" is specifically designed to educate and inform children about various types of animals and their care, as well as showcasing professional and non-professional people exhibiting selfless dedication assisting animals in need. The programs not only educate youngsters about a wide and diverse range of the world's animals, their habitats and how they live, but they also offer instruction on medical and rehabilitation techniques and address the social aspects and emotional concerns of being a responsible citizen.

As an Adjunct Professor at Western University School of Veterinary Medicine, a lecturer at UCLA Extension and a practicing veterinarian, I would recommend "Animal Rescue" to parents, educators and broadcasters as an excellent example of informational programming serving young viewers.

Sincerely,

International Fund for Animal Welfare

To Whom It May Concern:

We at IFAW (International Fund for Animal Welfare – www.ifaw.org) value the educational and informative content of the television program *Animal Rescue*. We feel that it provides youths with a good understanding of the key threats faced by animals both wild and domestic. We also feel that it provides responsible guidance to youths in encouraging them to become involved in key animal welfare and conservation initiatives. IFAW supports the good work of the television program *Animal Rescue* and recommends it to parents, educators and others who control the television viewing of youths in America.

Educational and Informational Programming

What is E/I Programming?

Educational and informational television programming is programming that furthers the educational and informational needs of children 16 years of age and under in any respect, including the child's intellectual or social needs and that also satisfies the following criteria:

1. The programming must have a significant purpose. Education need not be the only one. That purpose must serve the needs of children ages 16 and under.
2. Commercial broadcasters must provide the educational and informational objective of core programming in writing. The report will indicate a specific target age group for core programs.
3. Core programming was scheduled from Monday - Wednesday from 11:00 AM – 12:00 PM EST.
4. The program must be regularly scheduled so that it can be published in program guides consistently.
5. The program must be of a substantial length – 30 minutes or more.
6. Quarterly reporting of the schedule and hours of E/I programming to the FCC is required.
7. If E/I programming is preempted, written notice is necessary to identify where and why the E/I programming was preempted.
8. The program must be identified as specially designed to educate and inform children by the display on the television screen throughout the program of the E/I symbol.

Example of E/I Programming

Planet X provides young viewers a television show that meets core requirements of the FCC as follows:

Planet X is an E/I video sports and fitness based TV series for children 13 - 16 years old. Each episode mixes action & extreme sports content within a balanced and well produced program that features (1) inspiring sports & fitness themes, angles and stories, (2) informational and educational elements on sports training tips from athletes, (3) information on how to get involved in dozens of sports and fitness programs, coverage of sports and products from an insider's perspective, (4) regular travel and cultural experiences via foreign adventure feature shows all around the world and much more!

Topics covered each week include health & fitness, world and local travel and culture, ocean ecology and numerous sports angles including events, training, tips, athletes, lifestyle and more.
